Comments on Article Response #2

- There is always an opinion – get a sense of political issues
- Use of devices may be subtle
- Voice – mature
- Tone! Be sure to comment on this
- Citations (author or title inside parentheses) – always cite examples!
- MLA format – nit-picky! (college)
- Explain WHY it is a particular technique – don’t leave anything on the table. If you think you’re explaining too much, it’s probably just right! 😊
- Fallacies – be on the lookout for them
- Mention title of article and writer
- Organize by device if unsure – give each section of triangle a paragraph
